EXPERIENCE

Computer Support Specialist D

Mar 2026 - Present

NL Health Services — Corner Brook, NL

- Support technology used across multiple clinical and administrative departments, ensuring reliable operation of systems critical to patient care.
- Deploy, image, configure, and maintain computers and mobile devices in accordance with organizational standards.
- Support and troubleshoot Single Sign-On (SSO) devices, ensuring secure and reliable access to healthcare systems.
- Maintain accurate documentation for device deployments, inventory tracking, troubleshooting activities, and technical procedures.
- Collaborate effectively with team members to resolve complex issues, share technical knowledge, and deliver excellent customer service to clinical and administrative staff.

Founder / Full-Stack Web Developer

Nov 2025 - Present

Western Web Company — Corner Brook, NL

- Founded and operated a web development company building custom websites for small businesses.
- Worked directly with clients to gather requirements and define site functionality.
- Designed and built responsive websites using React and Next.js.
- Deployed and maintained live client websites using modern hosting and CI/CD workflows.
- Managed projects end to end, including timelines, feedback, and revisions.

Full Stack Developer

Apr 2025 - Mar 2026

Nexus — Remote

- Developed a smart hotel MVP, building and maintaining core frontend features.
- Implemented authentication, dashboard views, device management, and profile functionality.
- Built internal admin tools using Microsoft Blazor and SQL-backed with analytics and reporting components.
- Supporting internal users or team members with technical troubleshooting.

Full Stack Developer / Lead Developer

Apr 2024 - Mar 2025

Steady innovation Corporation — Corner Brook, NL

- Led full-stack development of Sidekick, an AI assistant, using React Native, Node.js, MySQL, AWS, RevenueCat, and OpenAI API—built end-to-end and deployed successfully.
- Supporting internal users or team members with technical troubleshooting.
- Mentored a student, guiding them through real-world development projects.

Full Stack Developer

Dec 2023 - Apr 2024

Freelance — Remote

- Built and delivered an MVP for Sidekick, a mobile AI assistant using React Native, Node.js, MySQL, and the OpenAI API.
- Delivered a functional, production-ready MVP for a paying client, earning $1,250.

Full Stack Developer Intern (Co-op)

Oct 2023 - Dec 2023

Steady innovation Corporation — Corner Brook, NL

- Contributed to building Fixden, a contractor-homeowner marketplace, from the ground up with limited prior JavaScript experience.
- Developed frontend and backend features using React, Node.js, MySQL, DynamoDB, and AWS.
- Collaborated with the team to implement features and optimize system design.

Junior Full Stack Developer (Co-op)

Jan 2023 - Apr 2023

Steady innovation Corporation — Corner Brook, NL

- Contributed to building Fixden, a contractor-homeowner marketplace, from the ground up while rapidly learning JavaScript.
- Developed frontend and backend features using React, Node.js, MySQL, DynamoDB, and AWS.
- Collaborated with the team to implement features and optimize system design.

Tech Teams Lead (Cp-op)

May 2022 - Aug 2022

The Office of Applied Research and Innovation — Corner Brook / St. Johns, NL

- Resolved technical issues using JavaScript, HTML, and CSS, improving website performance and user experience.
- Led two cohorts of high school students, teaching coding skills while guiding development of a functional website for Pasadena.

EDUCATION

Diploma in Software Development

Sept 2021 - Apr 2024

The College of the North Atlantic — Corner Brook, NL

- Developed applications and software solutions using object-oriented programming principles.
- Worked with SQL databases, including database design, querying, data management, and reporting.
- Gained hands-on experience with Windows environments, including PowerShell scripting, user permissions, and system configuration concepts.
- Participated in all phases of the software development lifecycle, including planning, development, testing, and maintenance.
- Applied troubleshooting and problem-solving techniques to identify and resolve software and system issues.
- Collaborated on team projects using version control and documentation to support development and maintenance activities.
